

## Accessories (C-Allview)

### Washer Assembly C-AWN Nozzle

**The washer assembly has been specifically designed for use with the C-Allview PTZ camera.**

The washer assembly comprises of a nozzle and a manifold mounting assembly that is fixed to the base of the C-Allview housing.

The nozzle is manufactured from stainless steel and the manifold from aluminium providing a robust washer solution. The C-Allview has a washer function that automatically positions the camera head to the washer nozzle.
